PROFILE

Born in Barcelona, Spain, 1994.

I am a friendly, hardworking person looking for part-time employment to go alongside my studies at the University of Aberdeen.

I am really interested in languages, travelling, science, technology and powerlifting.

EXPERIENCE

- **Co-Founder Hexeon Technologies, Barcelona, Spain 2016 Present**

Founded a technology startup that mainly develops customised software solutions for clients, with a heavy artificial intelligence component.

- **DevOps Engineer at Tracktio, Barcelona, Spain 2015 2016**

Software developer at an IT company, also attending business meetings and dealing with customers.

- **Customer Service at IberRentails, Tossa de Mar, Spain 2011 2015**

The job mainly consisted of dealing with customers at a house rental business. I would show them the property, tell them about the area and help them with anything else they might need, at any point during their stay.

- **Cryptocurrency freelance investor, Barcelona, Spain 2011 Present**

Investing capital in the cryptocurrency market, either for a customer or myself.
